

IQVIA Integrated Global Compliance.

Intelligent.
Automated.
Integrated.

We believe “what’s possible” can always go further. That’s why we do things differently at IQVIA. By simplifying and automating safety processes, regulatory information management and tech-enabled services, we are transforming compliance across your portfolio’s complete lifecycle. Increasing speed and accuracy. Reducing cost and complexity. It’s how we look beyond what’s expected to see what’s possible.

*Others may offer a way forward.
IQVIA gives you a way further.*

Compliance reimaged.

IQVIA has a vision that goes beyond simply optimizing individual safety, regulatory, quality, and commercial compliance functions.

Using cloud-based technology combined with advanced analytics—including artificial intelligence and machine learning—we are bringing together global regulatory intelligence and information management, safety data and processes, product quality information and legal/ethical guidance on an integrated platform.

For customers, this means:

- **Faster** cycle times
- **Improved** compliance performance at lower cost across all functions
- **Better** predictive planning, throughout the product lifecycle
- **Visibility** across your complete compliance landscape
