Email Newsletters

Every publication provides you with a choice of email newsletters so that you can keep on top of news and insights in the format most convenient for you. Check the box next to the newsletter you want to receive and click the Update Email Preferences button at the bottom of the Email Preferences page to make your selection.

Click in the upper left to expand the publication list, select all newsletters or unselect all newsletters.

Select from Daily, Weekly (monthly for In Vivo), My View and Special Topic email newsletters. **Note:** My View and special topic newsletters are only available to subscribers. You may choose one type or all, depending on your needs.
Newsletter Types

There are four categories of newsletters: daily, weekly (monthly for In Vivo), My View and special topics. Customize your choices to suit your needs.

Daily

All articles published in the previous day are automatically collected here. Select this option for comprehensive and timely news delivery.

Weekly

Select this option to see what stories our expert editors chose as the most relevant and thought-provoking in the past week. TIP: this newsletter does not include all articles published during the week. For complete coverage, select the daily newsletter.

My View

For subscribers only, the My View alert showcases new content in the topics you follow. Easily personalize your alerts by topic and receive updates up to once a day.

Special Topic

For subscribers only, our special topic newsletters give you our editors’ takes on a variety of subjects, including conferences, manufacturing and compliance, regional views, and much more. Choose one or choose them all, depending on your interests.
Custom Alerts

You can create your own custom alerts by using a 1-click alert from a topic page or link, or by saving them from searches you have run.

1. Click the bell icon to automatically turn the alert on. You will then see it in your list of saved searches and alerts in My Account.

2. When you click Save Search/Set Alert from your search results, you will be prompted to save your search. To set an alert, be sure the email alert box is checked.

TIP: Give your alert a distinctive title to easily identify it in My Account.
Custom Alerts: Tips

Tips on maximizing the effectiveness of custom alerts

1. **DON'T** filter by date. The alert is only looking for newly published stories, and these will not be found if you set an end date.

2. **DO** use non-date filters. Your filter settings will be retained when you create the alert, so you can restrict your results by a region, topic, or other criteria.

3. **DO** check the search results before saving the alert. If the existing results are too sparse or not what you are looking for, adjust your search criteria.
Custom Alerts: Tips

More tips on maximizing the effectiveness of custom alerts

1. **TIP:** To make changes to an existing alert, run the search from **My Account**, make your changes, then re-save the search as a new alert. If you don’t want to keep the original alert, delete it from **My Account**.

2. **TIP:** Regardless of the number of alerts you have, you will receive no more than one email per day. If multiple alerts produce results on the same day, they will be included in one email. If no results appear on a given day, you will not receive an email.
RSS Feeds

Set up an RSS feed to cover as much or as little as you want. Use the feed reader of your choice and be updated in real time.

1. To set up an RSS feed for all articles from a publication, or for shortcuts to common topic areas, go to the RSS Feed page from the main menu.

2. To set up a custom RSS feed based on your own search criteria, use the RSS feed link at the top of the Search Results page.
# Newsletter, Custom Alert, RSS Feed, or My View?

There are many choices for keeping up with the latest pharma and medtech news, whether it’s part of your morning routine or you’re on the go. Here’s how Email Newsletters, Custom Alerts, RSS feeds, and My View compare.

<table>
<thead>
<tr>
<th>Alert Type</th>
